

Rahul Sunny C S

Senior Software Design Engineer

rahulsunny13@gmail.com | 8606054888 | <https://www.linkedin.com/in/rahul-sunny-c-s> | Bengaluru

Profile

Results-oriented Frontend Engineer experienced in agile environments, owning features end-to-end from API integration to release. Pursuing **Senior Frontend** roles in **Bengaluru**; strengths include React, state management, design systems, and continuous delivery.

Work Experience

Winwire Technologies

Feb 2024 | Bengaluru

Senior Software Design Engineer

- **Expanded the analytics platform to two new brands** by taking over an **unowned/orphaned project** and extracting duplicated brand logic into **reusable modules**; simplified brand onboarding and ongoing maintenance.
- **Led a config-driven migration of email templates** to a **reusable component architecture**; defined the configuration schema and guardrails, improving cross-brand consistency and speeding iteration for campaign updates.
- **Delivered module-level code splitting** as part of a tech-debt cleanup, lifting **PageSpeed (lab)** by **+10** for that module;
- **Co-owned pre-checkout feature maintenance** with the squad—triaged and resolved priority defects, coordinated FE fixes, and kept releases on track during iterative changes.

Springboard

Apr 2022 – Jan 2024 | Bengaluru

Frontend Engineer - II

- Web Technologies worked on: **React, Gatsbyjs, Headless CMS(Storyblok), Vue, Selenium(Python), Git, Zapier**
- Played a key role in the pre-enrollment team's focus on conversion rate improvement by actively contributing to page-performance optimization, and SEO enhancements tasks.
 - Migrated Hubspot form to Inhouse house form which helps in faster loading of the forms, average increase of ~5 score in Lighthouse performance score.
 - Optimisation of page-data.json which reduce upto 6sec of TBT.
 - Created an app for configuring the redirection of the pages which leads to SEO improvement.
- Owned B2U part of the pre-enrollment side of the project.
 - Collaborated closely with stakeholders to understand priorities and planned tickets accordingly.
 - Established as the go-to person for B2U information and issue resolution for other team members.
 - Worked on various B2U tasks, including creating new components and integrating them with third-party tools like HubSpot and Storyblok.
 - Created tools to assist stakeholders in maintaining the site efficiently.
- Orchestrated end-to-end ownership for the B2U rebranding, ensuring a seamless transition to the new UI during the site's overhaul.
- Leveraged Selenium to automate critical flows and thereby improving quality and early detection of bugs.
- Played a crucial role in the accessibility migration initiative, enhancing site accessibility for a more inclusive user experience.

- Implemented pixel-perfect development by translating Figma designs into fully functional and responsive user interfaces.

Investnet Asset Management India Pvt Ltd
